

Mexicans Fire on United States Cruiser Is Report

CARRANZA TO BE GIVEN NO MORE TIME BY U. S.

WASHINGTON, March 15.—A rumor is in circulation today that a Mexican gunboat blockading Progreso, Yucatan, has fired on the United States cruiser Des Moines. The report could not be confirmed at a late hour today.

Officials of the Navy Department are inclined to believe the report.

The Des Moines has been at Progreso under orders to prevent Mexican warships continuing the blockade, unless it was voluntarily lifted, this action being taken to prevent interference with American commerce.

Nine-tenths of the sisal supply, the basic produce from which hemp cord used by harvesters in the United States is made comes from Yucatan. Two hundred million pounds of binder twine are needed annually in America.

Secretary of Agriculture Houston has told the President that unless the blockade was raised practically every harvesting machine would be out of commission.

President Wilson took the stand the de facto government of Mexico has no right to blockade a port which it does not control.

WASHINGTON, March 15.—Admiral Howard, commanding the Pacific fleet, stands ready to remove foreigners from Manzanillo in case of a crisis.

Navy Department advises that the Carranzista blockade of Progreso has been either abandoned or has collapsed. Two shiploads of sisal were allowed to leave port Saturday.

Food is entering Mexico City today and the water supply has been restored.

Conditions in Mexico City are greatly improved today, the administration states.

Officials refuse to discuss the possibility of a demand that Carranza remove all restrictions from commerce at Vera Cruz, but they made it plain that further temporizing on the part of Carranza will not be tolerated.

Vatican Is Scored as Ally of Germany in Great War

ROME, March 15.—Maurice Maeterlinck, the Belgian poet, now lecturing throughout Rome, rousing sentiment favorable to the allies, today made a savage attack on the Vatican. Expressing his appreciation of American aid, he said:

"On the other hand, I am sorry to say, the Vatican has proved to be unchristian. It has not followed the teachings of Christ. It has allied itself with the rich oppressor, Germany, by remaining aloof. Its pro-German sympathies are bound to affect the welfare of the church in Belgium and France after the war."

The attacks on the Vatican were received with displeasure by some of the leading sympathizers of the allies.

SMYRNA TO FALL IN WEEK

Whole Family Beaten to Death in Night While They Sleep

Flatiron, Blood-Covered, Weapon Used by Slayer

TERRE HAUTE, Ind., March 15.—The entire family of Mrs. Lizzie Balding were found today by neighbors with their skulls crushed.

Two children, Samuel, aged twelve years, and Celeste, aged seven years, were dead.

Mrs. Balding and three other children, together with a one-year-old baby are probably fatally injured. They were taken to a hospital where it is said there is no chance for them to recover.

The skulls of the whole family had been beaten in with a flatiron which was found, covered with blood, in Mrs. Balding's bed.

Evidently the family had been attacked while they slept.

BILLS TO ALLOW MAKING COUNTY INTO HARBOR DISTRICT

Tomorrow night Attorney Clyde Bishop of Santa Ana, city attorney of Newport Beach, will start for Sacramento, where he goes in the interest of measures that will allow any county in California to form itself into a harbor district and to allow the formation of harbor districts within a county.

The measure is proposed with a view to aiding Newport harbor. The conviction that the improvement of Newport Bay into a harbor is a county matter and not something to be handled entirely by the municipality, Newport Beach, has been expressed time and again in meetings of the Associated Chambers of Commerce of Orange county.

Acting for Newport Beach Attorney Bishop prepared an act modeled somewhat upon the harbor district act of the state of Washington. The bill as drawn up here was taken to Sacramento by W. P. Menton in January, and was introduced for passage.

Bishop has concluded that some amendments are necessary, and he has prepared them. Del Norte county has taken an interest in the measure, as that county has a problem a good deal like this county's. In Del Norte county it is proposed to establish a harbor at Crescent City. Wednesday noon Bishop will meet a delegation from that county, at Sacramento. Bishop and that delegation will go over the bill thoroughly, agree upon all of its provisions, and will then have the amended bill carried forward. Bishop hopes to get a hearing before committee at once. He will stay in Sacramento until the bill is sent out of committee with a recommendation that it do pass.

Under the plan as proposed, the county may vote to form itself into a harbor district, and may vote bonds to improve Newport harbor. There is also a provision that a district with boundaries comprising an area less than an entire county may be formed

TODAY'S ODDEST STORY

CALLIPOLIS, O., March 15.—We all have our delicate spots.

Jesse Hann, a privileged patient from Morgan county in the state hospital for epileptic here, fell off a sixty-foot cliff, dropped through a tree, struck on his head, rolled down a hundred-foot hill and 15 minutes after arose and walked away.

His only complaint was that he had skinned his shin.

and bonded for harbor purposes. If the bill as amended passes—and there is no reason to doubt but that it will pass—it will not be many months before a movement to form a harbor district of all Orange county or a part of it will be started.

ONE SENSELESS, TWO ARE CUT IN MISSION FRACAS

Damian Rios is unconscious from a blow on the head, Victor Manriquez has two slight knife wounds on one side and Pete Filings has a bad cut on one hand as the result of a free-for-all fight in a barbershop at San Juan Capistrano at 2 o'clock this morning.

Up to 2 o'clock this afternoon very little could be learned concerning the fight. Those who are known to have been present have had nothing to say. Officers here have been unable to learn who did the cutting. It is not known who struck the blow that may result in the death of Rios.

Rios, the only man seriously hurt, managed to get to his home, but before he could tell anything about the affair he lapsed into unconsciousness, and at the latest report today he was still in that condition. Manriquez had an artery severed in a slash on the back of his right hand. He was brought to Dr. Burlew's office for attention.

BRITAIN OPENS BLOCKADE ON ALL TEUTON COMMERCE

LONDON, March 15.—The fall of Smyrna before the end of the week is predicted in Athens dispatches today.

More British warships have been sent to reinforce Admiral Pierce.

The garrison is reported to have made preparations to evacuate as soon as it becomes evident further resistance is useless.

A hail of shells poured into the forts today as the allies' attack on the Dardanelles was resumed.

A score of mine sweepers, under protection of French cruisers, are clearing the channels of mines to permit the advance of battleships.

LONDON, March 15.—An order in council was issued by Great Britain today practically declaring a blockade against the whole German North Sea coast.

The word "blockade" was not used. The order lays drastic restrictions on neutral commerce.

The action is designed to prevent the exportation and importation of any commodities to Germany through Holland or Scandinavian countries.

The order becomes effective immediately.

England says she is forced to the decision by the German submarine blockade.

No neutral or other vessel sailing after March 1 will be permitted to reach any German port. Such vessels may proceed to a neutral country or to France and Russia.

If any vessel should reach a neutral port and the proceed to Germany it will be liable to capture and condemnation during any future voyage.

Assurances are given neutrals that they will be protected in the British prize courts.

WHY NOT DRAIN INTO COYOTE CREEK?

Artesia News: And while we are on this matter of drainage, why not drain the water east of Artesia into Coyote creek? We realize that this creek is the boundary line between Los Angeles and Orange counties, and that whatever improvements were made to the drainage way this creek offers would have to be done by the counties jointly. But, even so, we have no doubt but that our neighboring county would be willing to do its share toward the work. It seems to us that this would not only provide our citizens in the vicinity of Coyote creek with a proper drainage channel, but would, or should, if properly done, protect the ranchers along its banks and tributaries from the damaging food and surface waters in the wet seasons. The citizens of both counties suffer now and the officials of both counties should be interested.

Mr. Powers was a clean-cut, straight man, held in high esteem by all who knew him. He served two terms as state representative from the eighty-fifth district of Iowa. In 1898 he was appointed by the governor of Iowa as a member of the National Farmers' Congress, which met in Ft. Worth that year, and held many positions of trust in his home county. He was very successful in his business career. He had one of the finest equipped stock farms in the state of Iowa, consisting of 800 acres. MEAT CAUSE OF KIDNEY TROUBLE

Take Salts to Flush Kidneys if Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach aches, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

Miss Gertrude Barker, the Charming Leading Lady with "The Winning of Barbara Worth" at the Grand Opera House, Thursday, March 18

AMUSEMENTS

Grand Opera House

Coming to the Grand Opera House is the original Studebaker Theatre production of "The Winning of Barbara Worth," whose central character, Barbara Worth, bids certain to become a fixed character in dramatic literature. In no other work of fiction than the one in which her life story is told, has there been pictured a woman so characteristic, so typical of Western America. She is the woman who, while saturated with the wisdom of ages, is none the less clean, wholesome, unspoiled, untainted by worldliness. Child found in "The Hollow of the Hand of God," imbued with the spirit of the desert, the mystery of nature inspires her soul and keeps her in harmony with the infinite. She is the super-woman. The future rests in her keeping. It is never of the present she thinks, but her eyes are fixed ever on that time to come when her desert shall become the abode of thousands of prosperous farmers, the home of well-doing men and women whose children will grow up out-of-doors warmed at the heart of Mother Nature, strong, valiant, wholesome sons and daughters to form a working leaven in society.

Edward Abeles the Acknowledged High Comedian of the Screen at Temple Theatre

Edward Abeles, who plays the leading role in Jesse L. Lasky's pictureization of "After Five," the successful and very unique comedy by Cecil B. and William C. DeMille, is fast acquiring renown as the foremost legitimate comedy artist on the moving picture screen. Mr. Abeles' vast experience as a legitimate comedy star in foremost Broadway hits has given him just that degree of refinement and lightness of touch which distinguishes him from all of the old-time screen farceurs and makes him a delight to people who appreciate humor rather than buffoonery. Under the direction of Mr. Lasky, Mr. Abeles has already achieved sterling successes in "Brewster's Millions" and "The Making of Bobby Burnit." It is no exaggeration to state that he has far wider laughing-provoking opportunities in "After Five," and that he has become wonderfully adept at giving the full screen value to every situation. Edward Abeles in "After Five" will be the offering on Monday, Tuesday, Wednesday at the Temple Theatre, and is an attraction that may be sincerely recommended in advance, and furthermore, it will be the greatest pleasure you ever got out of a dime.

AT CLUNE'S A Comedy of Washington Life, Featuring Tom Wise in "A Gentleman From Mississippi"

The story of "A Gentleman from Mississippi" revolves around the adventures in Washington of a newly-elected senator from Mississippi, the jovial Bill Langdon, who is sent to the capital by the "trust" interests as an easy mark, who will coincide with their ideas through friendship for the men who put him there. The old gentleman, a cavalier of the old school, has a high sense of honor, and seeing through their schemes, defeats them and comes off victorious in a fight that threatens to destroy him financially, politically, and, what was

even more vital to him, to smirch the honor of his family. His daughters become infatuated with Washington social life and the elder becomes engaged to a congressman, Norion, who tries to put through a bill placing a naval base at a point in the Gulf of Mexico, where he has persuaded his fiancé and her brother to invest their money. Old Langdon discovers Norion's treachery and breaks the engagement.

"Bud" Haines, a bright young newspaper correspondent in Washington, has become acquainted with Langdon shortly after the latter's arrival at the capital and becomes the private secretary of the new senator. Knowing the perils of Washington political life he steers the old man safely past the reefs and captures the old man's younger daughter.

The old man falls a victim to the charms of a dashing widow while the pert young stenographer who furnishes quite a bit of comedy, surrenders to a persistent young reporter.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides, prevents dandruff, itching scalp and falling hair.—Advertisement.

AT CHINO FIND MISS FINLEY'S HORSE, BUGGY

Parts of Rig Torn Down Found
in House and Under Hay
in the Barn

The driving horse and buggy stolen from Miss S. M. Finley's ranch near Talbert six weeks ago was recovered at Chino yesterday. Joe Aredonda, in whose barn the horse was found, was brought home by Sheriff Jackson, and the Mexican is now in jail on a charge of horse stealing.

The horse, a pacer, was an unusually good driving animal. He was picked out of a stable in which Miss Finley had a number of other horses, was hitched up and driven away.

Sheriff Jackson sent out descriptions of the horse, along with pictures. Yesterday the sheriff got a telephone message from Constable Tebo of Chino, in which it was stated that a horse answering the description had been seen in Aredonda's possession.

With Miss Finley, Jackson went to Chino, got Tebo and rode to Aredonda's house. The horse was in the barn. Miss Finley was not alone in recognition, for the horse whinnied joyfully when she approached.

Aredonda said he paid a white man \$150 for the horse. He knew nothing about the buggy.

Jackson was not satisfied with the answer, and he started a thorough search of the premises, and the search was rewarded with the discovery of all of the parts of the buggy. In a dark room of the house the wheels, cushion, shafts and lights of the buggy were found. Under the bed in a bucket were bolts and nuts taken from the

buggy. The body of the buggy was discovered hidden in a corral. Then came the search for the frame of the running gear. A stack of baled hay was thrown down, and covered up in straw beneath it was the missing part. On a bed in the house were found two blankets that were stolen with the buggy.

Aredonda then explained that he had bought both horse and buggy from the man, who he said wanted to sell because the pacer ran away and broke the buggy. However, no part of the buggy was broken when the officers got the pieces together.

ALARM GIVEN WHEN FIRE STARTS AFRESH

After smoldering since this morning a small blaze broke out afresh in the kitchen of the home of W. J. Morris, 1046 West Bishop street, shortly after 1 o'clock this afternoon. A towel hanging near an oil stove caught fire and set the wall paper ablaze. It was thought that the flames were extinguished. Later it was found that the roof had caught fire afresh. The fire department was summoned and the blaze quickly put out.

RECEPTION TO BE GIVEN TO CONGRESSMEN

C. of C. Makes Tentative Plans
for Entertainment of
Solons on Visit

No definite plans for the entertainment of Congressman William Kettner and his party have as yet been made by the Santa Ana Chamber of Commerce, as it has not been learned when the party will arrive here from its visit to San Diego and Imperial.

Tentative plans are being made, contingent on the arrival of the party from San Diego at 11:25 o'clock in the morning either Wednesday or Thursday.

J. D. Thomas, chairman, and Martin Warren, Clyde Horton and Mrs. O. Robbins, comprising the entertainment committee of the Chamber of Commerce, have in mind a reception for the congressmen and their wives. This informal reception will last about thirty or forty minutes. Luncheon will then be served, according to the proposed plan, and the party will then be given a tour of Orange county by automobile.

Following the suggestion made by Congressman Kettner the solons will be taken on an inspection tour to Newport Bay. The congressmen have expressed interest in the Newport harbor project and the visit there is expected to be of benefit not only to them but to all Orange county people as well.

The present plan calls for the county tour to be completed at Fullerton in time for the party to meet its special train.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."—Advertisement.

COME ON YOU HENS, THE BLACK MINORCA ISSUES A CHALLENGE

The annual egg-laying contest is now open to all varieties of barnyard fowls. Orange county chickens always do things worth mentioning, and if the contest is not for the greatest number of eggs laid, it is for the size of the egg.

Over at Orange the other day the nest performances of a number of Barred Rocks were aired in print, and straightaway the Black Minorcas climbed out of their nests for a few minutes to set up a few cackles in the faces of the challengers.

Here is what the Minorcas' owner, F. W. Grumm, of East Palmyra avenue has to say:

"Hens of certain breeds lay eggs to beat the band at certain times of the year; but the only true record of laying is what the hen lays during a full year."

"I have not seen a record of Mr. Clapp's Rocks for the year, but here is the record of my Black Minorcas: Hatched April 14, 1913. First egg laid October 12, 1913. Number of pullets, 8. Eggs laid up to October 11, 1914, 1,587, or better than 198 eggs to the hen."

"I have ten Minorca pullets that were hatched April 24, 1914. Next month on the 24th I shall be pleased to comply with Mr. Clapp's wish to hear from records beating his Rocks."

OREGON CALLS A CONSERVATION CONFERENCE

Oregon has invited ten other western states to send representatives to a conference which shall devise means for securing indorsement of a certain doctrine on conservation of water-power set forth in a resolution adopted by its legislature. It is proposed that each state send to this conference its governor and four delegates elected by the legislature. It is explained promptly that this conference is called not to oppose conservation, but to promote one policy as against another for putting conservation into practice. The west, it is declared, is as anxious as the east to conserve its resources and to prevent waste, monopoly and speculation in the process of developing them.

The principal contention is, it appears, that the state, not the nation, is the best and only lawful agency through which this can be done. Congress and the eastern conservationists, it is said, contend that in the matter of conserving water-power, for instance, the nation alone can be trusted and should be supreme. The Oregon view, as set forth in a resolution adopted by its legislature, is directly opposed to this. Those who speak for Oregon say that in their belief all the other western states will be found on Oregon's side in this matter. Federal usurpation, it is held, must be opposed, and the Oregon resolution is to be supported as a bill of rights in the coming contest.

Every undue surrender of state to federal authority in the Union has been regretted by the thoughtful and judicious. Surrender of authority by the states in the matter of conserving natural resources was keenly regretted by thousands of thinking people who, however, could see no other way of protecting and preserving those resources. The regrets continue, but conservation is a fact. The states were too free in the distribution of the inherited wealth of the people. They squandered natural wealth that they should have conserved with strict fidelity. Some of them gave and gave to grasping individuals and interests until they were on the point of having nothing more to give. Federalization, centralization, carried to extremes, is not desirable. It is contrary to the American scheme of government; contrary to the real sentiment of the republic. But federalism, centralization, is better than exploitation and spoliation of the natural resources of the nation.—Christian Science Monitor.

SISTERLY LOVE

Here is what the Saturday Evening Post has to say about State Division in California:

To the best of our information and belief Southern California is admired and envied everywhere except in northern California, while the opinion that northern California is a splendid country obtains everywhere except in Southern California. To a non-Californian world this is excessively painful. Here are two beautiful sisters, for a full but modest description of whose surpassing charms you may consult any railway folder—not to mention a great quantity of more pretentious literature. Their petty feuds lavished by the twinkling waters of the Pacific and the remainder of their graceful persons bathed in a matchless article of golden sunshine, they face the east with smiles of ravishing yet entirely decorous invitation; but, alas! ever and anon they look at each other.

The two lovely pairs of azure eyes are disfigured by a squint. The rosy oval of two cheeks is marred by a tongue thrust into each. To the tips of two Grecian noses two delicate but derisive thumbs are applied. That this quite spoils the picture goes without saying.

We should never have dreamed that Miss Southern Golden was not all the fondest imagination could desire, both in form and character, if her sister had not told us that the one was mostly cotton batting and the other mere pretense; nor that Miss Northern Golden was less a modern Juno, if we had not had it from the other member of the family that she wore a wig and her temper was atrocious.

A separation of this enchanting pair would strike us as simply unthinkable if it were not that they continually talk about it between themselves. We do not know why each of the sisters cannot love the other, as everybody else does; but perhaps the beauties in one family seldom get along well together.

GETTING ANOTHER RECORD

A Brawley mother has just presented her husband with their fifteenth child—and the mother herself, Senora Ybarra, acknowledges to be 35 years. The Brawley News is offering to back her for the record in the United States, twenty children being the present championship score.

The Sun has always insisted that the Imperial Valley was the richest country on earth, and even the crop of children can't be equalled.—San Bernardino Sun.

The Political Watchtower

The time soon cometh when nomination petitions will be no more, the time when candidates have their feet solidly planted upon the municipal ballot and when those who have hesitated about running may well quit worrying and go fishing.

That time will be March 23, which date according to the calendar is alleged to be Tuesday of next week. That is the last day City Clerk Lester can receive nomination petitions for filing. Petitions must be circulated, signed and in the hands of the city clerk on that day.

And the election is April 12. We get that date not from the calendar but from some dozen or more candidates' cards that have been daily extended to the Watchtower in the last few days. Those candidates' cards are illuminating, only some are more so. The more so kind carry the likeness of the candidate whose name appears in black letters alongside the picture.

We overheard a fellow ask a candidate the other day: "What good looking fellow posed for your picture?" Speaking about cards Clinton ("Red") Imes is playing the red strong. He has red cards.

This morning the question came up as to whether or not a candidate who has filed his nomination papers can withdraw from the race and keep his name off the ballot. City Clerk Lester read the affidavits that go in the printed forms, and came to the conclusion that he would allow any person who desires to do so to withdraw. What is more to the point, the \$10 filing fee will be returned. Any person who wants to get out of the dismal swamps of running for office back into the splendid atmosphere of freedom from political worries should take heed of these things.

It seems that when some interested persons got out a ticket of five for the board of education, it was planned to get one from each of the city wards. So far as the law is concerned, they could all come from one ward, or one block, or one boarding-house, but it was thought well to distribute the candidates around over the city. When the list of five was announced it was stated that A. J. Crookshank lives in the First ward, H. C. Dawes in the Second, F. L. Andrews in the Third, G. W. Minter in the Fourth and R. R. Smith in the Fifth. As a matter of geography and fact, Andrews misses living in the Third ward by about sixty-five feet. The dividing line between the Second and Third wards makes a bee-line straight out East Fourth street to the city limits.

The East Fourth street resident who lives south of Fourth is in the Third ward, and his neighbor across the street is in the Second. Andrews lives on the north side.

Andrews, it seems, would like to find some real good excuse for not

running, but his friends are far from disposed to listen to any such talk. In the last day or two there has been a disposition of a number of Second warders to get Andrews to withdraw from the board of education candidacy and become a candidate for trustee of the Second ward. Andrews says he is agreeable to the first part of the proposal, but not at all for the second.

So far E. E. Cooley in the Second ward is the only candidate for trustee who has no opponent. In the First ward there are two candidates, A. J. Visel and D. G. Cole; in the Third, three, O. B. Alderman, O. H. Mayratt and J. S. House; in the Fourth, two, George McPhee and J. W. T. Kimball; in the Fifth, three, W. A. Greenleaf, L. A. Sweet and C. E. Brockett.

The most glorious fight of the galaxy is for city clerk. There are only nine candidates for that office. There has been some talk that possibly there would be another before the week is up. Who knows? It is a poor week lately that cannot produce a new candidate for city clerk. Of those who have been talked of as likely to run, E. E. Hardy is still reported to be considering the proposition. Here's the list of those who have taken out nomination papers: Charles Mattern, Ben Brown, Al Dresser, Frank Trickey, M. L. Lane, A. G. Lucas, Cecil Dubois, Ed Vegely and C. S. Shaw.

Mrs. Olive Lopez is alone in the nominations for city treasurer. Last week an effort was made to get Will McClain to run for that office, but the effort came to an untimely end when it reached McClain. His reply in brief was "Nothing doing."

Here is something interesting. Clyde Bishop may run for city attorney. It seems that there has been considerable stir around Bishop's office of late created by a number of Santa Ana people who want Bishop to become a candidate. Bishop has had the matter under consideration. Since he is going to Sacramento tomorrow afternoon, the chances are he will reach his decision today. Two candidates are already announced for the attorneyship scrap. They are City Attorney Heathman and Attorney G. H. Scott.

E. W. Boynton is not going to run for city marshal. Ed has taken a contract to paint a house. That did not cause him to decide not to run, for he could run and still paint that house. It does mean, however, that Boynton is going to paint houses and do other work beside police work for awhile. He is a right good officer. For a time he was nightwatchman, then he was ejected constable and then he was jailed under Sheriff Rudwick. There are three seekers for the marshal's job. They are City Marshal Sam Jernigan, Clinton Red Imes and S. A. Clark.

Today's Feature Story

[By a United Press Staff Correspondent]

WASHINGTON.—High school military training, unless carefully supervised and directed, will work evil rather than good, in the opinion of Secretary of War Garrison.

So to prevent the widespread agitation for such training from becoming a detriment to the nation, he intends soon to inaugurate a movement whereby this may be correlated and properly directed.

He announced today that he will try soon to get together a group of representative citizens from various communities to confer with a body of military experts from his department.

In this proposed conference, a plan

will be mapped out whereby military training may be used in the schools to the advantage of all concerned.

He decided on this measure only after hundreds of letters had suggested to him that the recent preparedness discussions had produced throughout the nation a movement for military training everywhere.

The secretary today explained that, in many respects he believed the public schools of today attempted too wide a range, and to make any military training effective he held, it must not be too ambitious a program, thrown in as a part of an undigested whole.

"When I went to school," he commented, "there were too many subjects. We had drawing a while, geography a while, and then trigonometry and calculus. Many of us didn't even know how to spell calculus, much less did we know what it was all about. For this reason, I have always felt that there should be more selection about school courses.

"And with respect to the matter of military training, I feel that we should not rush into it without careful consideration. We should not have the idea that schools can accomplish the purpose of turning school boys into trained soldiers. We must see to it that the training is properly supervised and properly apportioned."

He indicated that he is in hearty accord with the general principle involved but that he did not feel that it should be like many popular movements—"going up like a rocket and coming down like a stick."

"It is all very easy for the outsider to say, 'yes that's a great idea; let's have it.' But it is another thing to map it out, and make it efficient. For that reason I want to call in interested citizens to confer with army experts. I shall plan to do this as soon as possible."

The Secretary's idea would be to make such training in schools an attractive part of the curriculum, instead of a burden or hardship which students would avoid as they sometimes do difficult studies.

As far as the War Department is now concerned, it has no branch dealing directly with the general subject of school military training. The department is limited to actual army training, and to direction of state militia work, but Secretary Garrison feels that without new appropriations at this time his organization can be of distinct benefit as a guide to communities with military ideas.

Incidentally, it was suggested today, that community military training be in line with resident Wilson's frequently expressed theories against converting America into an army camp, but in favor of equipping men with a fundamental knowledge of military training in their leisure moments.

POLITICAL STATEMENT

A. G. LUCAS

As a man well equipped to fill the position he seeks, the friends of A. G. Lucas are hard at work in behalf of his candidacy. Lucas is well known as a man of integrity. He is as honest as the day is long. He has had a good deal of experience in clerical work as well as in business. For eight years he was a Southern Pacific agent, where absolute accuracy and carefulness were essential, not only as to correctness in figures but also to the safety of the traveling public. For the last seven or eight years, Lucas has been in the grocery business here, and previously was in the same business in Long Beach and Riverside. He sold his grocery store here recently. He had no idea of entering the race for city clerk until he was urged to do so by his friends.

BILLY SUNDAY-ISMS

"If womanhood of America was not better than manhood, I believe God would get tired and quit—"

"I've often wondered why some so-called Christians leave God's clover-patches and go up the alley to chew rags with the devil's billy-goats."

"Take a stranger into the average church and you'll freeze him to death." "What surprises me is that God is doing so well as He is with the bunch he has to work with."

"Do you know what a decolette gown is? It's a dress with a collar around the waist."

"There are men in Philadelphia whose checks are good for a million dollars in the bank, but whose names are not worth a picayune in heaven."

"The devil's gang will be up and dressed, with their faces washed and hair brushed, and forty miles on their journey, while some members of our ice-box churches are getting out of bed."

Practical Christianity

[A Weekly Review from the Standpoint of Clergyman and Layman]

How Can the Churches Minister to the Industrial and Social Needs of Humanity?

[BY REV. JOHN D. RICE, VICAR ST. JOHN'S EPISCOPAL CHURCH OF PORTLAND, OREGON.]

Christian intelligence has opened its eyes to the fact that if organized religion would do the work it should do, it must minister to the body as well as the soul of humanity. "Be holy" is not an answer that can be made in good faith to the needy and distressed whose cry for assistance is a challenge to the most powerful and influential agency in existence for the promotion of human welfare. The earth is filled with the fruit of the works of the Lord, and it is the duty of Christian people to do their best to insure to each needy person a proper share. And the presence of the vast host of the unemployed gives the church of the living God a great opportunity to justify its existence by necessary service rendered to mankind.

In this great work the question of method is of course of prime importance. At its best, emergency relief can only tide over its beneficiaries from day to day. It cannot go to the root of the matter; it can only postpone the solution of the problem of unemployment. Of course in times of crisis it is indispensable. But if the needy are to be benefited permanently, improvement upon the "hand out" and "old clothes" system must be made. Efforts must be made to eliminate eventually the superfluity of the larder and the back numbers of the wardrobe from the plan of helping where help is needed. Also erratic, spasmodic efforts must be steadied into the long, hard pull. Larger, finer and more truly effective methods are necessary. The ministrations to the social and industrial needs of men must be put upon a sound permanent basis of jobs for the jobless, and not rest upon emergency relief as the sole foundation.

The great problem to be faced by the churches, then, is that of employment and decent wages for the breadwinner. What can the churches do in this direction? Suppose we begin with individuals. There are odd jobs about the premises or office, which the thrifty church member is accustomed to attend to himself. It means will allow, why not give some needy person a chance? And as a detail of the organization work of the church, let there be an employment committee prepared to serve those who need work and to solicit applications from possible employers. Let a systematic canvass also be made by church members for jobs for the needy. Let employers of labor be urged to reduce the hours of labor rather than the staff of help in times of financial stringency. Also let men of wealth

be urged to inaugurate enterprises and industries creating a demand for labor. Standing upon higher moral ground as they do, the churches ought to be able to accomplish much in this direction, with their enormous influence to back their efforts. These suggestions are, in part, contained in the program of the Interchurch Employment Committee of the New York Federation of Churches. It may be added that aid societies and auxiliaries might hire much of their missionary sewing done by the needy seamstress, thus doing good both at home and abroad. And church organizations in arranging special functions could let some of the work be done by people out of employment, not stinting their wage.

In this work of dealing with the unemployed, the initial efforts may seem crude and scattered. But no beginning that is a real beginning should be despised. The idea is to realize upon the potentialities resident in the resources of the church, and with material at hand systematic organization in larger measure will come naturally and logically in the course of events.

MERRY HOUSE PARTY

Minnesota Friends Enjoy Hospitality of Mr. and Mrs. F. P. Nickey Over Sunday

Mr. and Mrs. F. P. Nickey of 519 Bush street were hosts at a delightful week-end house party, their guests being old-time friends of Mrs. Nickey, formerly from Northfield, Minn., where Mrs. Nickey was supervisor of music and drawing in the public schools.

Some of the guests arrived Saturday afternoon by auto in time for a pleasant dinner party, others coming down from Los Angeles in the evening on the Pacific Electric line.

Sunday morning two auto loads of this merry company started for Laguna Beach and the day will long remain a pleasant memory, especially for the guests who had never before seen the Pacific ocean, gathered the pretty shells or climbed among the rocks at Laguna Beach.

A sumptuous picnic dinner was enjoyed at noon-time and the members of the house party, who enthusiastically praised the beauties of Laguna, were Mr. and Mrs. N. E. Walthall, Mrs. W. W. Sheldon, Mrs. D. J. Ferguson, Mrs. Henry Vollmer, Miss Louise Vollmer, Mr. Percy Whitmore and the host and hostess, Mr. and Mrs. F. P. Nickey.

Some of the guests still live at Minneapolis and are in Southern California for the winter, and others are now residents of Los Angeles, where all returned last evening.

Delightful Dinner Party

Mrs. Granville Spurgeon entertained yesterday noon with a delightful dinner party at her home, 1332 North Broadway.

The rooms were beautifully decorated with bouquets of freshias and ferns, these pretty flowers being fashioned into an artistic centerpiece at the exquisitely appointed dining table, where a delicious turkey dinner with many tempting accessories, was served at noon-time.

Covers were laid for Mr. and Mrs. George Durant and two daughters, Misses Eloise and Marian Durant, of Nukwonago, Wis.; Mr. and Mrs. W. W. Halesworth, Mr. and Mrs. C. L. Slack, Mrs. Henrietta Seeley and Mrs. Spurgeon.

The Halesworths, Durants, Mr. Meacham and their hostess were old-time friends who formerly lived in Wisconsin, and the afternoon hours were pleasantly whiled away with reminiscences of days gone by.

SPRING IS HERE, AND

SPRING MILLINERY IS MUCH IN EVIDENCE

With the coming of spring, the various millinery parlors of Santa Ana have shown such a bewildering array of lovely bonnets and hats, that Milady has found it a joy to begin her Easter shopping early.

The attractive shops of the Misses Rutherford and Miss O'Donnell held their openings one week ago, their windows being especially attractive with drapings of delicately-tinted chiffons, a flurry of flowers and the newest spring creations. Saturday, Miss Taylor's parlors were aglow with peach blossoms, and head-wear, so dainty, new and stylish is being shown that one cannot fail to discover a suitable hat for every occasion.

A gilded swing suspended by streamers of the new mountain-glow color, shaded to pale pink, is the charming feature of her pretty show window and, corresponding with this rosy color motif, is the fetching creation of gray and rose, a quaint little bonnet that cannot fail to tempt some fluff-haired maid or matron.

Delightful music, furnished by Mrs. Will Merigold, who accompanied Mr. A. Pyle on the flute, was enjoyed during the afternoon and evening.

In the Crookshank-Beatty millinery windows, soft drapings of sand-colored chiffons form the graceful background for the fetching bonnets, of various style. Their opening was also held Saturday.

Lilies and purple iris charmingly decorated the parlors where Mrs. Varley is showing some of the fashionable new evening hats of light colored crepe de chine with sprays of dainty flowers between the transparent brims. Models in the new shades of Sierra blue, mountain glow and sand-color seem to be the favorites this season, and the variety of Quaker bonnets of every desirable hue vie with the shepherdess shapes and chic sailors worn with the becoming new veils.

A popular line of millinery is also attracting the Easter shoppers at Gilbert's and The Mode, and, while Mrs. Wilhelm held no formal millinery opening, her shop is now filled with the lovely new creations of the early spring.

The Bon Marche is steadily increasing in its popularity and the specialty of "making over" hats has found great favor among its many patrons.

Altogether the millinery establishments in Santa Ana are making such a tasteful display this month, that their windows are an eloquent appeal for the "patronizing" of home industry.

TO BOYS—AND OTHERS

Kansas City Star

In Sapulpa, Okla., a man shot and wounded another man because he cursed him. When the shooter was taken to court last Tuesday the judge said that any man who curses another ought to be shot and he discharged the prisoner.

Whatever may be your opinion of the judge's words and action he was certainly on good, solid ground when he remarked further that any man who habitually uses profanity is a fool.

There is no good reason why any person should use profanity. There are many reasons why he should never be profane.

The excuse cannot be made that "cuss words" give force to a statement, they weaken it. A statement couched in simple language is more luminous and forceful than one embellished with profanity.

For a man to say: "I'll be damned if I'll do it," is not nearly so positive and forceful as for him to say: "I will not do it."

A man who swears when he becomes angry advertises himself as lacking in self restraint and mental poise. Swearing is one of the coarser habits usually acquired in boyhood and once it becomes a fixed habit it is one of the most difficult to get rid of.

There are many men who would give almost anything to be rid, once and for all, of the habit of swearing. Realizing fully that it stands in the way of their self respect and in the respect of others they try hard to quit it, but habits formed in youth cling in later life like burrs to a horse's mane.

Boys and young men should realize this and beware of falling into the habit of swearing.

Bill Sunday, the evangelist, preached a sermon to boys recently on the wisdom of starting right. He illustrated it with the following anecdote:

"The time to start right is when you are young. I was out in a brick-yard several years ago and saw them making brick. They would put the clay in a big machine—something like a huge sausage grinder—and grind it up fine and then spread it out on a big platform and smooth it out just the thickness of the brick, and then a man would turn the big wheel and the knives would cut up the clay, and the lumps would put the pieces in wagons with shelves and carry them to the kiln and burn them.

"I picked up some of the clay before it went to the grinder and I could mold it any way I wanted it. I picked up one of the bricks after it came out of the grinder and I could still mold it.

"I picked up some clay that had lain in the sun for several days and by trying hard I could still bend it; but when I picked up a brick after it had come out of the kiln, try as hard as I might, I could not even dent it. It was burned hard and it would always remain that way.

"Boys and girls are like the clay. When they are young, God can mold them to do his way or the devil can mold them to do his way, but after they are old it is hard to change them."

As a means of aiding in catching bicycle thieves all of the bicycle stores in the county are working on a general plan of registering all bicycles. Constable Coleman says that any person who takes a bicycle to a repair shop can have it registered free, and it will be marked so that any other dealer will recognize the mark and know where to go for information in case a bicycle thought to have been stolen is offered for sale.

KEOGH CHECKS PAID, CHARGES ARE DISMISSED

Los Angeles Attorney Says Trouble Caused by His Own Carelessness

The felony charge against Attorney Joseph P. Keogh of Los Angeles was dismissed today after he had paid up on two worthless checks issued by him, one for \$15 to County Clerk Williams and one for \$3.75 to Court Reporter Stanley.

Keogh explained that it was carelessness on his part that had delayed a settlement of the matter last week. He came here today with his father and Deputy Sheriff Smith of Los Angeles. The question of dismissing the charges was taken up in a conference with the district attorney, and it was decided that the matter could be squared up with the dismissal of the criminal charge and restoring the civil action, Mann vs. Rose, to its place in the files. Last Saturday this case was stricken from the files by Judge Thomas when it was learned that the check given for fees was worthless.

That the claims against Trownee & Stoeker that will not share in the \$1807 deposited in the First National

The claim is for crushed rock furnished the contractors for the Olive bridge, which contract Trownee & Stoeker have abandoned. So far as the county is concerned, Trownee & Stoeker have nothing more coming. Only those claims filed previous to the meeting of the supervisors last week get any share in the \$1807.

POOR LITTLE GIRL'S DREAM COMES TRUE

BOSTON.—To be a poor little girl with the poor little girl's dream of some day becoming a princess with untold wealth and then to suddenly find that the wealthy part of the dream has come true, is the experience of fifteen-year-old Josephine Romano, whose father is a laborer in the employ of a gas and coke company in Everett. Josephine's dream of wealth came true just the other day when she was awarded \$16,000 by a Suffolk county jury for injuries sustained several years ago when she was hit and tripped by a live wire which was dangling from one of the Boston Elevated poles. She was so severely burned about the head, face and hands that the marks will remain on her for life. A scar extends across her neck from ear to ear and both hands are disfigured, only two fingers are of use on her right hand. "It is so much money that I don't know what to do with it," she said. "I think I'll put it in the bank and then be a real lady."

EASY TO RID NATION OF ALL PLAGUE SPOTS

PHILADELPHIA.—The people of the United States can rid the country of plague spots and provide proper sanitation by exercising the proper spirit, in the opinion of Dr. C. Wardell Stiles, of the Rockefeller Hookworm Commission, lecturing here recently.

Dr. Stiles characterized the house fly as the national enemy, and asserted that health officers and physicians must educate the public in connection with the dangers of allowing this pest to spread infection.

"The hookworm disease is due to the pollution of the soil and lack of proper sanitation," declared Stiles. "And these two things are also behind most of the evils and disease."

FIRE TIES UP TRAFFIC IN NEW YORK SUBWAY

FORD BUYERS IN LINE TO GET CARS QUICK

On Return From Ford Parade
 Local Agent Finds Crowd of Customers Waiting

Genial Charley Davis, manager of the Santa Ana Ford Sales and Service Company, has reduced the business of selling Fords down to something near a science.

Here's about the way it goes: Charley orders a carload or two carloads or three carloads of Fords rushed from the factory. Then he meets the shipment up in Los Angeles and organizes the cars into a procession, all bedecked with banners and other parades boosting Orange county and the Fords.

Then he has the whole procession driven down to Santa Ana from the metropolis, taking in every town on the way.

Arriving in Santa Ana, the procession makes a triumphal march through the main streets of the city and then turns into the garage by way of the Sixth street entrance.

"You see," said Charley Saturday, "that parade down from Los Angeles makes everyone who sees it want to buy a Ford. The drive around Santa Ana gives these buyers time to reach the garage ahead of the procession. As we drive the cars in at the Sixth street entrance, there is a line of purchasers waiting. We take their money, plant them at the wheel of a Ford, and they drive out of the Main street entrance and take their cars home with them."

"Just like that. It's easy when you know how, and when you have a car and the service to back you up."

Saturday afternoon, for the second time in a week Charley engineered one of these parades. Fourteen Fords—right off the train in Los Angeles—made the drive down to Santa Ana.

Stenciled across the radiators were such inscriptions as "Buy it Now," "Fords Always Good," "Wise Men Buy Fords," etc.

Banners along the sides of the cars bore such slogans as "Ford Parts Can Be Bought in Twenty Different Places in Orange County," "Cut Out Expenses—Buy a Ford," "If You Want to Be First Up the Hills, Get a Ford," "There's no Use Passing a Ford—There's Always Another Ford Ahead," "This World Is Just One Ford After Another," "Ford Service Means Satisfaction in Orange County," "Put Away That Foolish Pride and Buy a Ford," "Wise Men Buy Fords and Put the Balance in the Bank," "Orange County for Banner Crops, Which Means More Fords Every Day," "Bound for Orange County, Where It's All Prosperity—Fords Helped Make It So," "Buy Your Ford at Home—They Cost the Same Everywhere," "Do We Sell Them on Terms?—Come and See Us."

These processions have been quite an advertisement for Santa Ana, as can be witnessed by the comment in the newspapers along the line.

Incidentally, as showing how easy it is to learn to drive and operate a Ford, Davis tells the following: "A man brought in his car—it was not a Ford—for repairs last week and we promised to have it ready for him Saturday night. Owing to failure of some parts to arrive, we were unable to finish the work. Not wishing to spoil a possible Sunday outing for our customer, we offered to let him have the use of a Ford for the day."

"But I never drove a Ford in my life," said the customer.

"Time you learned," we told him.

Two Records Broken and One Mark Made at Old Mother Colony

Two records broken and one established in the javelin throw, was the toll at the end of the big Orange County Interscholastic Track and Field Meet held on the Anaheim track Saturday afternoon. Anaheim High School succeeded in carrying off the E. B. Smith trophy, taking fifty-six points. Santa Ana was a strong second, capturing 41, while Huntington Beach with 21 followed in the order named.

Keeney Stars
 Leo Keeney, the Santa Ana pole vaulter, broke the county record in that event by clearing the bar at approximately 10 feet 6 inches. The former record was held by Cookman at a mark two inches lower.

Pettigrew, the Fullerton "bushy," tossed the shot 44 feet 7 1/2 inches for a new record, and Doty of Anaheim established a javelin record by heaving the spear 155 feet.

Although the Mother Colony boys won the main cup, Captain Ernest Plavan, the Santa Ana star, carried off the individual championship trophy, with a total of eighteen points. Webb of Anaheim was second with fourteen.

Hickey Takes Mile
 The best race of the day developed when Hickey of Orange and Halderman of Santa Ana met in the mile, the first track event of the meet.

For two laps the two men struggled neck and neck, and it was not until the last 150 yards that Hickey broke into the lead. It was a gruelling race and Halderman should not be ashamed of the wonderful race he ran.

Cridle Versatile
 Poly came in strong in the hurdle events. In the high Leonard Hamaker and Johnny Cridle ran away with first and second places, respectively.

Besides winning the pole, L. Keeney captured third in the discus. Gene Trago won his letter by nabbing third in the high jump while his teammate, in the event, Christensen, was just nosed out of third at the tape. Fletcher and "Red" Budkett tied for third in the high jump with Plavan second. Besides winning the pole, L. Keeney captured third in the discus. Gene Trago won his letter by nabbing third

Close Second
 Bobby Hill placed a close second in the half-mile while his teammate, in the event, Christensen, was just nosed out of third at the tape. Fletcher and "Red" Budkett tied for third in the high jump with Plavan second. Besides winning the pole, L. Keeney captured third in the discus. Gene Trago won his letter by nabbing third

"Well, we took him around the block once or twice, and then put him at the wheel. He drove around once, and then said he guessed he could manage."

"He took the car out for the better part of the day and brought it back without having had a stop of any kind."

"I only wish my car was as easy to handle as this Ford," he said as he brought it in."

FOUR CARS IN INITIAL SPINS AROUND TRACK

The first real practice for the 75-mile amateur race to be held next Sunday afternoon was held at the race track yesterday afternoon. There were four cars out at the same time, and about 200 people were also out to get a line on the cars. Besides Tom Wright in the Locomobile and Jack Schonberger in the Buick, there was Neff Morrison out in his stripped Ford which he just completed yesterday morning. Chris Peterson and Jerry Lyons in the Motorbloc from Orange were also out for the first time. Owing to one bad corner, the southeast one, the drivers could not make very fast time, but as it was, they were making the mile track in 75 seconds. Most of the time was put in on tuning up the cars and learning the curves.

Morrison's Car Speedy
 Neff Morrison sure has some racing car now. He has taken the body clear off his car, and the whole thing sets on the axle. He has no springs. By building the car low this way he has the advantage of a direct drive, and it will be almost impossible to turn over. He has equipped it with a new Bosch big tension magneto and has put on a Master carburetor. In the practice yesterday he found that his gear ratio of two and a half to one was a little too high, so he will change and put on a three to one gear, which Gene Roe is going to let him have. In taking the car out to the track he struck a post at the entrance and bent his front axle. He was forced to go back to town and straighten it out before he could practice.

Motorbloc Tries Out
 The big Motorbloc was the last one out. Peterson and Lyons have been working two or three days getting it ready for practice and it was not completed until today. It still needs some more tuning up before Peterson will be able to get the speed out of it. The car is rated at fifty-one horsepower and it will do as high as seventy miles an hour. The car has four speeds ahead and is a double chain drive.

Joe Babbitt was not out yesterday as he has not quite completed grooming his car as yet. He will probably be out tonight or tomorrow night. This Cole of Joe's is picked by a good many to win the race. Joe has all the necessary equipment to keep the car going at top speed.

Cribara Nearly Ready
 Dick Cribara has not quite finished work on his car either. All that is necessary is to build the seats. It will be out for practice tonight or tomorrow night.

Bob Clark was out last Friday night and made several laps in 75 seconds. He will give his car the final touches the first of the week and then will be ready for the big grind next Sunday.

A road scraper will be put to work on the track at once and cut out all the ruts, throw out the loose dirt and bank the track a little more on the turns. The track will be sprinkled good the night before the race so as to keep the dust down.

BEER MEN FAIL TO PUT IN APPEARANCE

The Anheuser-Busch ball club failed to arrive here in time yesterday for its game with the Santa Ana Moose. There was no game played. It is quite likely that the local ball tossers will take a vacation this coming Sunday on account of the 75-mile auto race.

Maxwell and Dodge in a Climbing Duel

A hill-climbing feud between the Dodge Brothers car and the Maxwell "Twenty-five," which has been brewing in this locality for some time will culminate in a duel at the top of El Modena grade tomorrow morning at 10:30.

Charles ("Tiny") Barker will drive a Maxwell "Twenty-five" up the steep grade to the south of the top of the El Modena grade proper. H. A. Des Granges, salesman for the Dodge car at Orange, will do the same stunt, acting for C. E. Lush, Orange agent for the Dodge.

The point is that Barker avers he can drive his Maxwell further up the sub-grade than Des Grange, and vice versa.

Each car will haul four passengers

up the incline in addition to the driver.

Barker is going to use a car that has run only about 350 miles. It will be Des Grange's endeavor to secure a Dodge car that has run a like number of miles. If he does not, he will use one that has run about 2400 miles.

A great deal of interest is being taken locally in the forthcoming duel and a good-sized crowd is expected to be on hand to witness it.

Both Barker and Des Grange are known as skillful drivers and capable of getting all out of a car that is possible.

The grade to the south on reach the top of the El Modena incline is said to be a forty per cent grade and offers ample opportunities for showing the mettle of both car and driver.

One of three games between the Venice Tigers and the White Sox seconds was scheduled to be played at Anaheim this afternoon, beginning at 2:30 o'clock. The other games will be played at Venice on Tuesday and Wednesday.

A large crowd of fans from various parts of the county was expected to attend the game this afternoon at the Mother Colony.

SPORTLETS

Venice
 The greatest crowd that ever assembled to witness a practice for a road race event gathered at the Venice Parkway yesterday afternoon to watch the racing drivers try out their cars in preparation for the big race Wednesday.

Ralph De Palma is to drive the De Lage that C. R. Newhouse drove in both San Francisco races. Newhouse is to be De Palma's mechanic and will also act as driver.

Another practice was scheduled to be held on the speed trail between 10 and 12 o'clock this morning. Harry Grant will be on the Stutz that Cooper was to have driven. Cooper is said not to be in physical condition to drive.

Armstrong
 Erving Scott Armstrong defeated Harold Lamb, 2 up and 1, in the thirty-six-hole finals of the Los Angeles Country Club's invitation tournament yesterday.

What, Again?
 The White Sox walloped the Angels again yesterday by a score of 3 to 1.

Goofs
 The Chicago White Sox No. 2 defeated Oakland at San Francisco yesterday morning, 1 to 0. San Francisco beat the same team 14 to 4 at San Francisco in the afternoon.

Those making the trip were: Mrs. H. T. Rutherford, Mrs. Tom Cox, Mrs. William Adams, Mrs. Jack Fitzpatrick, Mrs. Lillian Bryan, Mrs. G. After the return to Nigger canyon all procured the lunches while "Chef" Foley made coffee and broiled steak. A fine feed was the result and the way that twenty-seven pounds of sirloin steak disappeared, together with a variety of pies, cakes and sandwiches, was marvelous and proved that the hike was a good tonic and appetizer. All expressed their appreciation of the trip and are lining up for the tramp in two weeks.

P. E. Sends Out Engineers to Plan to Drain Water From Trenches

TALBERT, March 15.—It looks now as though a switch will be put in here by the P. E. There has been a great demand for cars to be loaded here by the celery growers, so the company sent out two men the other day to look over the location and the came to the conclusion that they would put in about 300 feet extending from the Holly sugar-beet dump running north. The work will very likely be done at an early date so as to allow the boulevard men a siding for their gravel. They expect to have in over 100 cars to begin the cement work. The company also had a couple of civil engineers out to see about draining the low places to keep water from standing near the tracks.

Last Monday a mule belonging to McCain, who has charge of the road teams, was struck by one of the early cars. A gash about two feet long was cut in the mule, but no bones were broken.

COULD NOT STAND ON FEET

Mrs. Baker So Weak—Could Not Do Her Work—Found Relief In Novel Way.

Adrian, Mich. — "I suffered terribly with female weakness and backache and got so weak that I could hardly do my work. When I washed my dishes I had to sit down and when I would sweep the floor I would get so weak that I would have to get a drink every few minutes, and before I did my dusting I would have to lie down. I got so poorly that my folks thought I was going into consumption. One day I found a piece of paper blowing around the yard and I picked it up and read it. It said 'Saved from the Grave,' and told what Lydia E. Pinkham's Vegetable Compound has done for women. I showed it to my husband and he said, 'Why don't you try it?' So I did, and after I had taken two bottles I felt better and I said to my husband, 'I don't need any more,' and he said 'You had better take it a little longer anyway.' So I took it for three months and got well and strong."—Mrs. ALONZO E. BAKER, 9 Tecumseh St., Adrian, Mich.

CHILSON NOT LOCATED.
SMALL SUM AWAITS HIM
AT NATION'S CAPITAL

So far as can be learned, E. E. Chil-son has not been located. Inquiry concerning him was made by Attorney Harry Peyton of Kellogg building, Washington, D. C., in a letter reading as follows:

"I am today writing to Stephen Louis Chilson, or E. E. Chilson, his son. These parties lived at Santa Ana in 1893. I have recovered a small amount of money for them and it will be to their interest if I am put in touch with them."

"As stated, the last record I had of them was in 1893 at Santa Ana. Stephen Louis Chilson may be dead. E. E. Chilson, his son, is probably living, and if not at your postoffice, I will thank you very much to make further inquiry for him and if he can be located to put me in communication with him."

Sheriff Jackson knew both of the Chilson. He states that the elder Chilson is dead. E. E. Chilson is a miner, who used to make Coulter's department store his headquarters when in Los Angeles. A letter addressed to him in care of Coulter's and another to general delivery, Los Angeles, were returned to the Register.
